

## Letter of support for Maximillian Vording presenting at MLSP 2019

To Whom it May Concern,

Copenhagen, 7 August 2019

After completing his master's degree, Maximillian Fornitz Vording started his work as a Ph.D. student at the Department of Applied Mathematics and Computer Science at the Technical University of Denmark, where I have the pleasure to be his main supervisor. Maximillian has a strong educational record, and received the top grade for his master's thesis. His work has lead to a research article that has been submitted for publication in the journal Bioinformatics.

In collaboration with and under the supervision of me, Maximillian has lead the experiments and written a paper, which got accepted for presentation at the conference, MLSP 2019. I believe Maximillian would benefit strongly from presenting our work at MLSP 2019 and attend the workshops, tutorials, talks and poster sessions there. This can expand his academic network, develop our research ideas for future publications and lead to new collaborations abroad. I see him fit to be our representative in this.

I wholeheartedly support Maximillian's effort to represent us and our work at the conference. On request, I would be delighted to provide further information.

Respectfully yours,

A handwritten signature in blue ink, which appears to be 'Mikkel Schmidt', is written over the printed name.

Mikkel Schmidt,  
Associate Professor, DTU Compute
