Dear Maximillian,

I understand that you would like to spend the period from September 2, 2019 to January 3, 2020 visiting the Machine Learning (ML) group in the Department of Engineering of the University of Cambridge. I am very pleased to informally invite you to join us as an academic visitor during this time period. A formal letter from the Department of Engineering will be forthcoming. The purpose of your visit will be to engage in research collaborations with members of the ML group. During this period of time you will assume any accommodation, travel, bench and administrative costs resulting from your visit and you will not receive any funding for the research from the University of Cambridge. As Principal Investigator at the ML group and member of the University of Cambridge faculty, I am looking forward to your visit. Please, do not hesitate to contact me with any questions or concerns.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Miguel', with a large, sweeping loop underneath.

Dr. José Miguel Hernández Lobato  
University Lecturer in Machine Learning
