How to fill in the formula

NB! Please read the information below carefully

- ← Please fill in one form for your bachelor's degree and one for your Master's degree
- ← Credits may be listed either as points, hours, or whichever quantification method used to calculate the estimated time spent on coursework.

If all courses weight the same, i.e. are each worth the same amount of credits, just enter 1 in each field under Credits

Please do not enter your thesis grade together with the courses, as it may influence your grade point average disproportionately in a positive or negative manner. Please list this grade in the designated field below.

- ← **Please include this percentage in the Application Form (page 2)**
- ← This section is only for exams evaluated with 'Passed' or 'Not Passed' grades. If all your grades are numeral, please leave this part of the conversion sheet empty.
- ← **Please include this percentage in the Application Form (page 2)**
- ← **Please include your thesis grade in the Application Form (page 2)**
